

HYPERHIDROSIS Management

VIA BOTULINUM TOXIN

AFTERCARE GUIDE

REDUCE SWEAT.
RESTORE CONFIDENCE.
RECLAIM COMFORT.

Following a few simple aftercare steps will help you achieve the best possible results from your treatment.

DRY COMFORT.
CONFIDENT YOU.
EVERY DAY.

WHAT TO EXPECT

Results begin in 2-7 days.

Maximum results in 2 weeks.

Sweat reduction lasts 4-6 months.

Maintenance treatments recommended as needed.

Everyone responds differently – your results are unique to you.

YOUR AFTERCARE INSTRUCTIONS

HANDS OFF FOR 24 HOURS

Avoid touching, rubbing or massaging the treated areas for 24 hours to prevent the product from spreading.

AVOID HEAT & EXERCISE

Avoid strenuous exercise, hot showers, saunas and heat exposure for 24-48 hours.

NO DEODORANT OR ANTIPERSPIRANT

Avoid using deodorant, antiperspirant or scented products on the treated area for 24-48 hours.

AVOID ALCOHOL

Avoid alcohol for 24 hours as it may increase bruising and swelling.

AVOID LYING FLAT

Stay upright for 4 hours after treatment. Avoid lying flat or bending over.

GIVE IT TIME

Results develop gradually. Be patient and allow up to 2 weeks for full effect.

YOU MAY EXPERIENCE

- ♥ Mild redness
- ♥ Swelling
- ♥ Tenderness
- ♥ Small bumps
- ♥ Bruising

These are normal and usually resolve within a few days.

WHEN TO CONTACT US

- ♥ Severe pain
- ♥ Signs of infection
- ♥ Allergic reaction
- ♥ Any concerns

We're here for you every step of the way.

TREATMENT CARE JOURNEY

Botulinum toxin works by temporarily blocking the signals to sweat glands, reducing excessive sweating and improving your quality of life.

TREATMENT
Quick & precise

RESULTS BEGIN
2-7 days

PEAK RESULTS
2 weeks

ENJOY CONFIDENCE
4-6 months

Stay comfortable. Stay confident. Be you.

IMPORTANT TO REMEMBER

- ♥ Follow aftercare for the best and longest-lasting results.
- ♥ If you need future treatments, maintain a gap of at least 12 weeks between sessions.
- ♥ Consistent maintenance helps you stay sweat-free and confident.
